

BIOREPEEL AFTERCARE

Here are a few things to remember before and after your biorepeel treatment

Pre-Peel Instructions:

- Avoid any exfoliating agents for 48 hours prior to your appointment
- Avoid AHAs, BHAs, retinols, and self-tanning for 7 days prior to your appointment
- Avoid any waxing, hair removal, or hair bleaching for 14 days prior to your appointment
- Avoid UV or sun exposure for 14 days prior to your appointment

Post-Peel Instructions:

- Avoid makeup application if possible for 24-48 hours following your appointment
- Avoid AHAs, BHAs, and retinols for 14 days following your appointment
- Avoid waxing, hair removal, or hair bleaching for 14 days following to your appointment
- Avoid swimming and steam saunas for 14 days following your appointment
- Avoid sunbeds, tanning, or self-tanning for 14 days following your appointment
- Keep the skin hydrated with a gentle moisturizer and drink plenty of water
- Do not pick or peel, you may experience mild peeling or dryness

After the treatment, it is utmost important to wear a high broad spectrum SPF cream of 30 or higher to protect your skin from sun damage and maintain best results.
